

Klinikum South

**Nürnberg,
Germany**

Fast and reliable transportation of hospital goods with Telelift UniCar improves transport flexibility and optimizes logistic processes.

The Customer, the Requirements, the Solution

With 6,100 employees and about 2,370 beds in two locations in North and South of Nuremberg, the clinical center is tending 100,000 stationary patients per year. The clinical center is divided into 38 hospitals and institutes. Almost 400 trainees are studying at the training center for nursing professions.

The clinical center Nuremberg is ranking among Europe's largest communal hospitals. It uses its know-how with maximum performance level and all special disciplines. Target is an ongoing optimizing of early diagnosis, treatment and aftercare, as well as establishing close cooperation between ambulant and stationary area. To perform optimal transport logistics, architects and planners decided to install a comprehensive Telelift UniCar system.

The success:

Reduction of manual transports allowed a significant cost reduction. The payback time was less than 4 years and the system now affords a 99% availability.

Medical

The Solution:

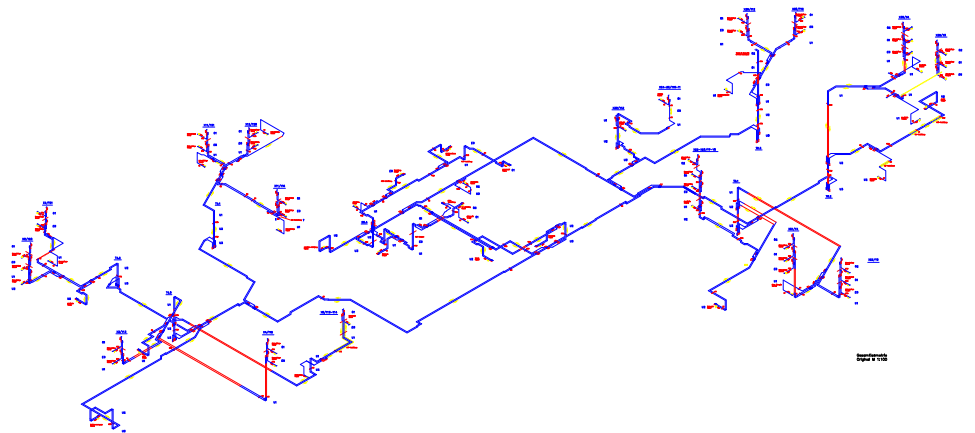

Track length:	3000 m
Stations:	66
Vehicles:	180
Switches:	141
Fire doors:	123
