

**Yancheng No. 3  
People's Hospital**

**Yancheng, China**

Fast and reliable transportation of hospital goods with Telelift UniCar improves transport flexibility and optimizes logistic processes.

## The Customer, the Requirements, the Solution

Yancheng No.3 Hospital is located in the area of Jiangsu district, China. Yancheng is the largest city in Jiangsu regarding geographical spread and the second largest city in population. The new hospital was opened in 2011 and is built with 750 beds on an area of 100.000 sqm. It serves 650.000 outpatients and 45.000 inpatients per year.

The Telelift UniCar was planned from begin on, so that effort and costs were clear and competitive. The UniCar system provides fast and reliable transports of drugs, IV-bags, specimen and other small goods between operating theatres, laboratories, pharmacies, storage areas and wards.

UniCar is a high-performance electric track vehicle system with containers for max. 10 kg loads. In Yancheng No 3 hospital the system does all transportation tasks up to 10 Kg like documents, laboratory samples, intravenous bags and bottles, blood and sterile supplies

### The success:

Reduction of manual transports allowed a significant cost reduction. The payback time was less than 3 years and the system now affords a 99% availability.

# Medical

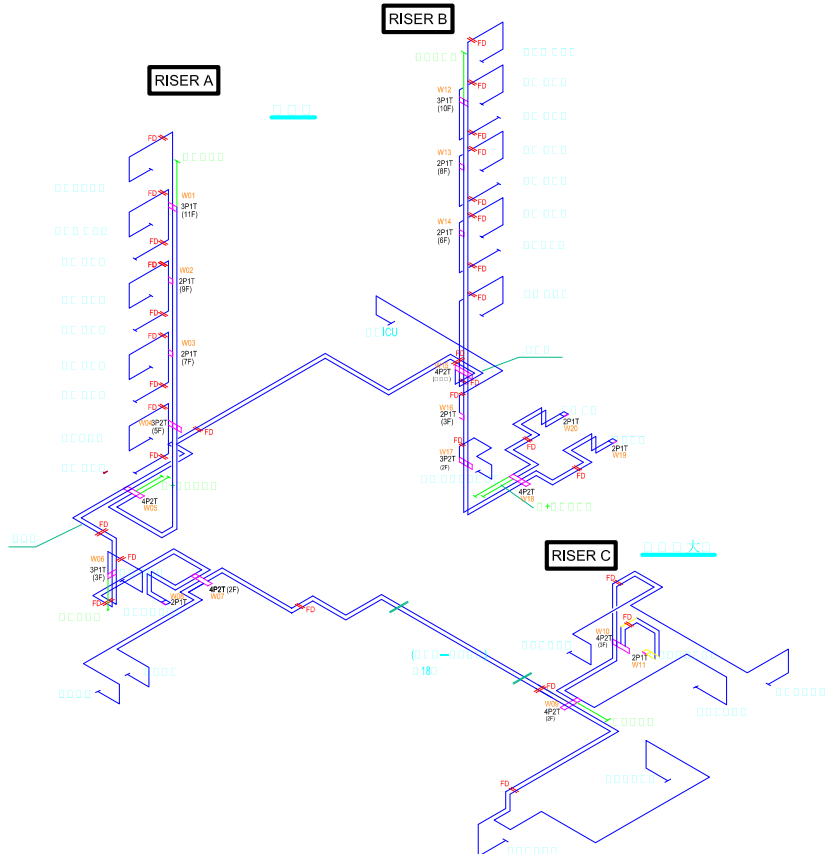

## The Solution:

Track length: 1050 m  
 No. of station: 31  
 No. of vehicles: 44 / H175  
 Beds: 750
