

ADAC headquarter

Munich, Germany

Automated and fast transportation of mail letters with Telelift UniCar in the new Munich ADAC headquarter

The Customer, the Requirements, the Solution

In order to provide a reliable transport of mail letters and documents, the ADAC headquarter in Munich (German car drivers club with 17 Mio members) decided to install a Telelift track conveyor system. All vehicles are equipped with an automated loading and unloading device. (ADAL - auto drop auto load) This provides 100 percent delivery accuracy and high system availability. In addition, security coded transports of documents are possible.

Security

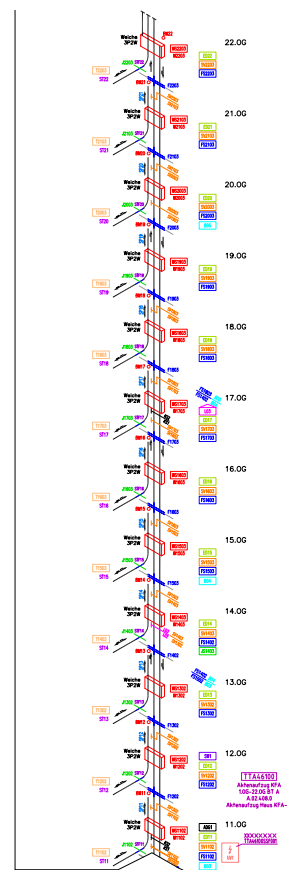

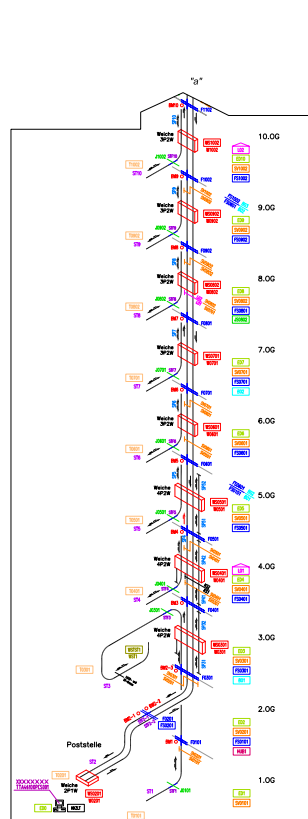

The Solution:

| | |
|------------------|-------------|
